

# SHIN, HWANG, YEO & LEE

Premier Clients  
Premier Talent  
Premier Counsel

We serve our clients with top-tier talent, delivering solutions with excellence and strategic insight.

# FIRM INTRODUCTION

---

Shin, Hwang, Yeo & Lee brings together senior lawyers with deep experience across leading law firms and practice areas.

We go beyond analysis. Combining legal depth, practical judgment and a clear view of what matters, we help clients navigate complexity, protect their interests and achieve their objectives.

## Key Practice Areas

---

### M&A

Strategic advice on transactions and governance matters that shape corporate value — from mergers and joint ventures to shareholder disputes.

---

### CORPORATE

Practical, commercially focused support across the business lifecycle, including contracts, internal controls, governance and compliance.

---

### CRIMINAL DEFENSE & INVESTIGATIONS

Clear, coordinated defense from the earliest police inquiry through indictment, trial strategy and courtroom advocacy.

---

### IT & TMT

Helping clients navigate the fast-moving digital landscape, with practical advice on data protection, AI regulation and ICT law.

---

### IP & TECH

Helping technology-driven businesses protect and commercialize their intangible assets — including trade secrets and patents — and manage product-related risks.

---

### FINANCE & PROJECTS

Supporting clients through the full lifecycle of finance and project transactions, from structuring and documentation to the execution and closing of domestic and cross-border investments.

---

### INTERNATIONAL PRACTICE

Guiding clients through overseas expansion and cross-border disputes, with integrated support across North America, Southeast Asia, the Middle East and other key markets.

---

- Virtual Assets A to Z: From Investment to Dispute Resolution (Co-author, Korea Economic Daily, 2022)
- Study on Liability for Damages Arising from Artificial Intelligence Conduct (Co-author, National Information Society Agency, 2022)

## KEY CREDENTIALS

### Trade Secret & Industrial Technology

- Advised a major manufacturer on trade secret misappropriation involving EV battery materials, cells, modules, packs, and testing processes; represented client in related civil and criminal proceedings
- Represented a major manufacturer in criminal proceedings involving alleged leakage of LNG carrier manufacturing technology; handled related civil litigation on patent validity
- Advised a multinational automotive manufacturer on trade secret misappropriation involving AI processors (NPU); represented client in criminal proceedings
- Represented a major manufacturer in civil and criminal trade secret disputes involving former employees and competitors
- Advised an SME manufacturer on export control compliance involving national core technologies and strategic items

### Privacy & Data

- Advised on expedited regulatory review for services using emerging technologies (AI, robotics, drones, and IoT)
- Represented a credit card company in civil litigation arising from a personal data breach
- Advised a healthcare data platform on the design and implementation of data protection frameworks
- Advised a medical device company on compliance for personal data collected through devices
- Advised on regulatory and legal issues relating to the integration of AI services into software-based medical devices
- Advised on data sharing and compliance in joint clinical research involving medical information
- Advised on the installation and operation of video information processing devices (including security cameras) in compliance with data protection laws
- Represented clients in criminal proceedings involving unlawful processing of personal video data

### Product Liability

- Advised in connection with the manufacture and sale of products without safety certification
- Represented a multinational manufacturer in civil litigation arising from turbine and generator explosions at a thermal power plant
- Represented a major construction company in defect litigation involving catalyst and dust collection systems at a thermal power facility
- Represented a mid-sized manufacturer in criminal and civil proceedings arising from the Gangneung hydrogen tank explosion
- Represented a mid-sized manufacturer in civil litigation involving battery fire incidents (ESS and electric vehicles)
- Represented a major manufacturer in civil litigation arising from a self-propelled artillery explosion
- Advised and represented a major manufacturer in civil litigation arising from a data center fire incident
- Advised and represented a multinational automotive manufacturer in civil and criminal proceedings involving emissions manipulation
- Represented a multinational automotive manufacturer in product defect and damages litigation
- Represented a major manufacturer in civil litigation arising from a helicopter crash
- Represented a mid-sized company in civil litigation involving defects in SI/ERP/MIS system integration projects
- Represented a major construction company in defect litigation involving a large-scale construction project
- Represented a cryptocurrency exchange in civil litigation arising from server outages and hacking incidents

## KEY CREDENTIALS

### Intellectual Property

- Advised a domestic university-industry cooperation foundation on an employee invention dispute
- Represented a major steel manufacturer in civil litigation involving employee invention compensation claims
- Advised and represented a multinational automotive manufacturer in patent infringement disputes involving auto parts, including invalidation proceedings and related civil and criminal actions
- Represented a mid-sized manufacturer in civil and criminal patent infringement litigation involving semiconductor equipment and materials
- Represented a mid-sized software company in patent infringement litigation involving payment processing systems
- Advised a mid-sized semiconductor equipment manufacturer on patent prosecution and filing strategy

### Startups

- Advised a domestic edtech company on technology product supply and business cooperation agreements
- Advised startups on M&A transactions, including legal due diligence and transaction documentation (SPAs, SHAs)
- Advised startups on equity structuring, including dual-class share issuances, stock options, and RSU grants
- Advised companies on shareholder defense strategies and ownership structure planning
- Advised on the formation of joint ventures and negotiation of shareholders' agreements
- Advised on structuring and contracting for cross-border joint research and development collaborations

## KEY CREDENTIALS

### Intellectual Property & Healthcare

- Represented client in trade secret misappropriation disputes involving secondary battery manufacturing equipment and HVAC (GHP) systems
- Advised and represented client in pharmaceutical patent linkage matters, including regulatory strategy and related patent infringement litigation
- Represented client in patent claim construction proceedings and infringement litigation involving insulated deck plate technology
- Represented client in patent infringement, invalidation, and appellate proceedings involving secondary battery separators and related materials
- Represented client in patent infringement, invalidation, and appellate proceedings involving secondary battery separator base materials
- Represented client in litigation involving plant variety protection rights
- Represented client in appellate proceedings challenging decisions in patent invalidation actions (including biotechnology-related inventions such as probiotic coating methods)
- Advised on technology strategy and developed patent maps for plasma sterilization systems
- Represented client in copyright litigation involving architectural design documents
- Represented client in patent disputes involving term extension and scope of protection
- Represented client in patent infringement and invalidation disputes involving consumer products (e.g., beverage containers)
- Advised and represented client in employee invention compensation disputes
- Represented client in patent infringement litigation concerning the scope of protection of salt form pharmaceutical patents
- Represented client in pharmaceutical patent infringement and invalidation proceeding
- Advised and represented client in trade secret disputes involving botulinum toxin-related technologies
- Represented client in trade secret and patent disputes involving semiconductor equipment

### AI & Personal Information

- Advised on litigation relating to a major credit card company's personal data breach incident
- Advised on legislative and regulatory reform matters concerning technical standards for high-risk AI systems
- Advised on the Framework Act on Artificial Intelligence and its Enforcement Decree
- Advised the support desk established under the Framework Act on Artificial Intelligence on legal and regulatory matters
- Advised on personal data protection and AI regulatory issues relating to the use of medical data

### Environmental, Energy & Regulatory Compliance

- Advised on regulatory compliance under the Motor Vehicle Management Act
- Conducted legal due diligence and document review for vehicle emissions certification matters
- Advised on regulatory and litigation matters arising from the humidifier disinfectant incident
- Advised on environmental regulatory compliance under the Chemical Control Act (CCA) and Chemicals Control Act Enforcement framework in relation to industrial facility establishment
- Advised on M&A transactions and conducted due diligence for waste treatment and incineration companies
- Advised on environmental regulatory compliance, including ESG and operational due diligence

## KEY CREDENTIALS

### **Environmental, Energy & Regulatory Compliance**

- Advised on administrative sanctions and regulatory enforcement actions involving a waste management company
- Advised on and structured joint ventures between a domestic conglomerate and a hydrogen energy company
- Represented client in environmental tort litigation involving soil contamination and remediation liability
- Advised on regulatory compliance relating to environmental claims in product advertising and labeling

### **Product Liability**

- Represented client in civil litigation arising from cryptocurrency exchange shutdowns
- Represented client in civil litigation involving cryptocurrency exchange data breaches and personal data protection issues
- Advised and represented client in criminal proceedings and regulatory matters involving virtual asset issuance and cryptocurrency regulations
- Advised on and represented client in disputes and damages litigation arising from fires involving automobiles, manufacturing facilities and data centers
- Advised on EPC contracts for a railway infrastructure project, including design and construction risk allocation
- Represented client in arbitration proceedings arising from defects in hydropower gate manufacturing, the Four Major Rivers Project
- Represented client in arbitration proceedings involving design and construction of nuclear power plant fire protection piping systems
- Represented client in arbitration proceedings involving design and construction of overseas power plant cooling water systems
- Represented client in criminal and civil proceedings arising from the Gangneung hydrogen tank explosion
- Advised on legislative development and regulatory standards for high-risk artificial intelligence technologies
- Advised on the Artificial Intelligence Framework Act and related subordinate legislation
- Represented client in civil litigation arising from aircraft procurement disputes (meteorological aircraft)
- Represented client in civil litigation involving a wind turbine failure incident

# OUR APPROACH

---

## From individual expertise to integrated judgment

Our lawyers and professionals work as one team across disciplines, bringing together insight, experience and judgment.

This integrated approach enables us to deliver one coherent view, tailored to the client's objectives and resilient in the face of complexity.

### — I · CAPABILITY    What We Bring

<p>1</p> <p><b>Legal Depth</b></p> <p>Partner-level expertise built at leading law firms and applied to complex advisory and disputes matters.</p>	<p>2</p> <p><b>Frontline Insight</b></p> <p>Investigative experience that helps us understand how enforcement decisions are made – and how to respond.</p>	<p>3</p> <p><b>Disciplined Execution</b></p> <p>Practical advice translated into clear strategy, decisive action and consistent follow-through.</p>	<p>4</p> <p><b>Client Focus</b></p> <p>We listen first, see the matter from the client's perspective and stay aligned with what matters most.</p>
--	--	---	---

### — II · PROCESS    How We Work

<p>1</p> <p><b>Listen</b></p> <p>We take time to understand the client's concerns, objectives and the issues at the heart of the matter.</p>	<p>2</p> <p><b>Diagnose</b></p> <p>We consider legal risk and business impact together, bringing advisory, investigations and international perspectives together.</p>	<p>3</p> <p><b>Strategize</b></p> <p>We map the available options and recommend the most effective route, taking into account outcomes, cost, timing and risk.</p>	<p>4</p> <p><b>Execute</b></p> <p>Wherever the matter takes us – courts, prosecutors or counterparties – we work alongside our clients to move the strategy forward.</p>
--	--	--	--

---

WHEN TRANSACTIONS, INVESTIGATIONS, IP AND DATA PROTECTION CONVERGE,

WE BRING THE **RIGHT PEOPLE** TOGETHER FROM THE START.

OUR CLIENTS RECEIVE **ONE COORDINATED VIEW**, SHAPED BY THE FULL STRENGTH OF THE TEAM

– NOT SEPARATE OPINIONS FROM SEPARATE PRACTICES.
